"A Most Interesting Place"

# Cliff Dwellers™ Gallery

Visit one of the most interesting galleries in the Smokies, and you'll be visiting a piece of Gatlinburg's history. The building was rescued from downtown Gatlinburg, relocated and restored in the Great Smoky Arts & Crafts Community. The Gallery continues its tradition of fine arts and crafts and features the work of local and regional artists. Everyone who works in the shop is eager to share its history. Visit on any day and you will discover why the Gallery is considered a living museum as the works inside the shop take form under the gifted hands of the Cliff Dweller artists.

The six artists who own and operate Cliff Dwellers display their own work with style while also showcasing other artists and craftsmen whose works are as eclectic as their own.

Walk through the doors of Cliff Dwellers Gallery and you immediately see it lives up to its welcome sign. It truly is a "most interesting place" where the past blends with the present and the line between fine art and crafts is erased.

A landmark shop in Gatlinburg, TN  
since 1933  
now located in the heart of the  
Great Smoky Arts & Crafts Community
